

## **FOREWORD**

The Office of the Registrar of Newspapers for India, popularly known as RNI, continues to provide valuable service to the publishers of daily newspapers and periodicals from across the country since its establishment on 1<sup>st</sup> July, 1956. As a Nation we have reasons to rejoice that the publishing industry in India has grown by leaps and bounds during the last six decades providing the right fillip to literacy growth and thereby improvement in living standards.

The compilation of an Annual Report on the print media in the country is one of the most important statutory functions of RNI under Section 19(G) of the Press and Registration of Books Act, 1867. The report, "Press in India" submitted to the Central Government every year is a detailed analysis of the Print media scenario in the country. So far, RNI has brought out 61 reports of "Press in India" since 1957 and I am very glad to present the 62<sup>nd</sup> report of the same. The report lays special focus on circulation pattern of newspapers based on claimed circulation figures in the Annual Statements submitted to RNI.

As a step towards realizing Digital India dream, RNI is in the process of digitizing its various services. Online filing of Annual Statements, started in 2014, is a major success with 31,717 registered publications submitting their statements for the year 2017-18.

Encouraged by the successful implementation of e-filing of Annual Statements, digitization of title application and registration processes are also in the offing. Other services that are already in place include facility to view online the status of title verification and registration, and list of existing and de-blocked titles, sending status update of applications through SMS and e-mail, online download of Certificate of Registration and an effective Public Query Response Cell to help publishers. As part of the modernization plan, the official website of RNI (rni.nic.in) has been relaunched recently further enhancing the quantity and quality of information and guidance to publishers. I call upon the publishing industry to optimize the use of our website and help us to provide enhanced services.

We sincerely hope this report will be of immense help to print media, media analysts and research scholars to get hold of accurate and reliable data on print media in the country. We expect 'Press in India' to serve as a guide for aspiring publishers and public in general.

I am happy to record my appreciation to the team of RNI officials for their sincere efforts in bringing out 'Press in India 2017-18' on time. My sincere gratitude to Hon'ble Minister of State for Information & Broadcasting (IC) and Minister of State for Youth Affairs and Sports (IC), Col. Rajyavardhan Rathore, Secretary in the Ministry of Information & Broadcasting, Shri Amit Khare and other officials of the Ministry of Information & Broadcasting for their unstinted support and guidance.
